User Instructions

Getting Started

1. Go to the Home Page at https://www.learningtrajectories.org

2. Select LT² Login tab and choose Register. Fill-in all fields.

3. If you have students who want to explore Games, set up a first class.
   a. Select “Class” then “Classes” from the drop down menu.
   b. Click on “Add Class” to start a class.
c. Fill-in class information and click “Save”.

```
<table>
<thead>
<tr>
<th>Class name</th>
<th>Created date</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>Test</td>
<td>2020-03-02 15:48:58</td>
<td></td>
</tr>
<tr>
<td>Just Checking</td>
<td>2020-01-30 00:15:40</td>
<td></td>
</tr>
<tr>
<td>The People</td>
<td>2019-12-10 13:44:01</td>
<td></td>
</tr>
</tbody>
</table>
```

Add Class

Class Name

Grade/Age

Start Date

End Date
4. Once a class is added, you can begin adding individual students.
   a. Select “Students” from the “Class” drop down menu.

5. Fill-in information for the student and assign a visual password.

Your student will now be able to login with the Student Login using their assigned visual password.
Above are some of the Games available on our website.

**Exploring the Learning Trajectories**

1. **The Learning Trajectories**
   a. You can start with any learning trajectory, but if you’re stuck, Counting is a good place to start.
   b. Within each trajectory are multiple levels (Number Word Sayer: Foundations, Chanter, Reciter, etc.). Read through the level descriptions and watch the videos to learn more.

2. **The Alignment Tool**
   a. The Alignment Tool highlights typical levels for the age/grade that are chosen with the tool. It only shows highlighted levels if the level is expanded, as Counting is below. Some of your students may be at the level before or after the typical levels.
   b. The Alignment Tool can also be used to look at alignment to Standard, such as Common Core State Standards. Once chosen, hover over the Standard or Assessment icon to read the Standard or click on the level name to read about the level and the aligned standard.
3. Introducing a Concept
   a. Select the level that represents where most of your students fall.
   b. Use the activities at that level to help teach the concepts/skills to your students.
   c. Remember! An important part of all LT activities is to allow children to explain their thinking, try multiple strategies, and thereby experience why some strategies are more effective than others.
COMING SOON! Student Progress Reporting

1. Observe your students and record their progress at the trajectory level
2. Write any notes pertaining to student progress at each trajectory level
   a. The teacher notes are for you only
   b. Parent notes will be sent to the student’s authorized email address(es)
3. You can keep track of your students’ progress in each trajectory by viewing the Trajectory page.
Demo Account

If you just want to explore the system, you can use the demo account:

- Main Teacher Platform: https://www.learningtrajectories.org
- Email: demo@learningtrajectories.org
